### Demolition & Abatement: US Navy Housing Structure BEH022

#### Demolition and Asbestos Abatement of Hazardous Materials

## Select Demolition

### Details:

- Owner: United States Navy
- General Contractor: W. M. Jordan Co.
- Project Name: Selective Demolition - BEH-022
- Location: Norfolk Naval Base, Norfolk VA

### Description:

**SELECT DEMOLITION** on this job required the removal of environmentally hazardous materials, including Asbestos, PCB, and lead. Multiple, six story housing structures were completed on time, without issue. Engineering and shoring plans were engineered to maintain structural integrity, involving specialty structural considerations, saw cutting, shoring and demolition. Removal of elevators and Pearlite roof was necessary while maintaining a demolition and abatement workforce exceeding 80 skilled workers.
